October 2011

NOW THAT'S SCARY

If you're out stalking at night,
You may give people more
than a fright!
If your teeth and gums not
clean,
You may be smelled before
you're seen!

MORE, MORE!

The O'Keefe house is like an
art gallery now that Colin's
works adorn the walls ... Now
maybe Doc can get some for
the office too!

GUYS IN THE CORNER

It will be spooky not having
Brien home for Halloween,
but maybe Thanksgiving.

Colin is loving his classes at
RIT even though they keep
him up day and night ... now
he can be a zombie for
Halloween!

Sean is not in a costume ...
that is his Gi. He and his
black belt friends are were
dressed for battle for the
Isshinryu karate tournament in
Lebanon PA. Sean won 2
silver and 1 bronze metals.

HEAR NO EVIL

By now almost everyone has heard about Roger. You know the long time patient who brings Chris the earplugs. Yes, Roger is the guy who is going to go into business with Chris to sell the 'don't have to listen to Dr. O'Keefe's chatter' earplugs in a kiosk right outside the office. Chris is still working on a name for the business, but she will be glad to tell you all about it ... of course if you aren't wearing earplugs to block her out!

Well Doc whined that Roger never brought him anything, so Roger kindly gave him a John Deer shirt, and wore a Buffalo Bills shirt to boot ... now *that* is a great gift! Thank you Roger.

THE DOCTOR - PATIENT BOND

We have always worked hard to get to know you while meeting your dental needs ... to create a bond so to speak. Well recently Doc and Chris created a patient bond - while bonding the patient!

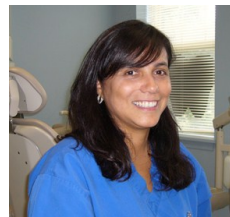

Our sad patient had a very discolored tooth for a very long time, which made her not want to smile. We all know how Dr O'Keefe likes to see smiles, so out came the composite! In a little over a half of an hour, our formerly sad patient was crying tears of joy! Smiles all around! Now that is how to make a bond.

CAUGHT IN A WEB OF TRUTHS

For about a year now our office has had a fabulous Website ... but we are afraid that no one knows about it. Our web address is drokeefefilling-you-in.com (which is like the name of our Newsletter). We have fun photos of Doc and our team, views of the office and our technology, staff pages, pictures of the care we provide, and our monthly Newsletter (just in case you miss it).

Recently, Bob and Justin from CGI shot a videos of Dr. O'Keefe and Dr. Ross for our site to go along with our previous video! Lynn made Doc look pretty (well as good as she could with what she had to work with), Dr. Ross already was pretty, and we had fun. So tell your family and friends and go to our site ... learn more about us and what we can do ... and have some fun!!

**This Halloween don't have Bat Breath ... look into a new Oral B electric toothbrush!
They make great Christmas gifts too ...
but the rebate won't last forever. Ask Lynn before it's too late!**
